

# A WAVE OF ENTHUSIASM FOR JOURNAL'S FUND,

HEROES OF CUBAN BATTLEFIELDS  
AND MAINE MARTYRS HONORED.

WHICH IS NOW NEARING THE \$103,000 MARK.

NEW YORK ALDERMAN'S TRIBUTE TO  
SLAIN SOLDIERS AND SAILORS.

Pain's Coming Tour to the  
Far West Ar-  
ranged.

HE STARTS NEXT WEEK.

San Francisco, Salt Lake City  
and Denver on the  
List.

PROCEEDS FOR THE MEMORIAL.

He Expects That the Trip Will Add  
Thousands to the Journal's  
Maine Monument  
Fund

## A LAWYER'S TRIBUTE.

"I BEG leave to hand you here-  
with my check for \$72 for the  
Journal's Monument  
Fund, a trifle collected among a  
few members of the Drawing Room  
Club, and which, in behalf of them,  
The public recognition of heroism  
creates heroes, and monuments  
reared to the memory of the brave  
and illustrious dead point the way  
to noble and patriotic acts. We owe  
a debt to the men of the Maine  
which we can never pay. Their  
death awakened the country to its  
duty. As 'the blood of the martyrs  
is the seed of the Church,' so the  
destruction of the Maine roused the  
country from its lethargy and  
opened out new vistas of obliga-  
tions to humanity and new glories  
in our national career. Yours very  
truly,

Some Members of the Journal's Committee to Honor Our Fallen Heroes and Maine Martyrs.

New York Aldermen Plan to  
Honor Our Dead  
Heroes.

A CARNIVAL OF SPORTS.

It Will Be Held at Sulzer's Har-  
lem River Park Afternoon  
and Evening.

A HOST OF ATHLETIC EVENTS.

Alderman Burrell Says That His Col-  
leagues Are Anxious to Show  
Their Respect for the  
Nation's Dead.

## A GIANT TASK.

"I AM proud to have done a little  
toward helping the Journal  
raise this monster fund to  
honor the memory of our heroes  
who have fallen in Cuban battles,  
and those poor sailors and marines  
who died with the Maine.

"The fact that this fund has  
reached and passed the \$100,000 mark  
is an event of no ordinary im-  
portance. It not only reflects the great  
power of the Journal, but it shows  
the patriotism of the people.

"I congratulate the Journal on this  
evidence of popular approval, and  
hope that its fund will grow to a  
much larger figure."

COLONEL JACOB RUPPERT.  
A member of the National Monu-  
ment Committee.

## PAIN'S ITINERARY FOR TRIP TO FAR WESTERN CITIES.

He Will Visit San Francisco, Denver, Salt Lake City,  
Portland, Ore., and Many Other Places for  
the Journal Monument Fund.

San Francisco,  
Oakland,  
Fresno,  
Los Angeles,  
Salt Lake City,  
Denver,  
Kansas City.

THIS is Pain's itinerary for his West-  
ern trip in aid of the Journal's fund  
to honor the men of the Maine and  
the brave fellows who lose their lives in  
Cuban battles.

"I will be ready to start West in a few  
days," said Mr. Pain yesterday. "For  
weeks my most expert artists have been at  
work on the scenery for this trip, and  
everything is nearly in readiness. The  
greater part of the paraphernalia neces-  
sary for the productions will be shipped  
from Chicago direct to San Francisco. The  
scenery will start from this city.

"I propose to give an exact reproduction  
of the 'Battle of Manila' and the 'Blow-  
ing up of the Maine,' which are now at  
Manhattan Beach. To carry my material

it will require several of the biggest cars  
in use. Some of the most expert artists  
in my employ will go West and give their  
personal attention to the setting of the  
pieces.

"It is my intention to give the people  
of the West an exhibition of fire works  
such as they never have seen. No expense  
will be spared to make the trip a most  
remarkable one from every point of view.  
I am promised a great reception in San  
Francisco, and I think the people of the  
other cities included in my tour will also  
take an unusual interest in this venture.

"If we are favored with good weather  
the results ought to be very gratifying to  
the Journal, for I am certain we will add  
a very considerable sum to the Journal  
fund to honor the nation's heroes who have  
fallen in battle."

It is possible that Portland, Oregon, Sacra-  
mento and other far Western cities may  
also be included in the route. This, how-  
ever, has not as yet been settled.

Experts who have seen Pain's fiery por-  
trayal of the "Battle of Manila" declare it  
to be a perfect representation of the great

naval fight. It is regarded as Pain's mas-  
terpiece. It not only amuses, but it is pe-  
culiarly instructive, giving a fair idea of  
how great naval battles are fought. Twenty  
ships in full action, patterned after  
Denver's victorious vessels, and the defeat-  
ed Spanish squadron, are seen during the  
picturesque reproduction.

In San Francisco Pain has made arrange-  
ments to secure a place where he will be  
able to produce his war scenes just as  
vividly, and on as large a scale as he does  
at Manhattan Beach. He has been offered  
several sites in a convenient part of the  
city, but until he gets there and makes a  
personal inspection he will make no definite  
selection. In the other cities included in  
his route, arrangements have been also com-  
pleted whereby a good site for the presen-  
tation can be had.

"This trip will be a fair test of the  
patriotism of the people of the far West,"  
said Mr. Pain, in concluding a talk of his  
plans. "They will not only see a great  
sight, but in attending it they will know  
that they are helping to build a memorial  
to the men of the Maine and the soldiers  
and sailors who may be killed in the pres-  
ent war. Some of the brightest of the of-  
ficers who have been killed so far came  
from the West. The people there will now  
have an opportunity to pay proper tribute  
to their memory."

## COLONEL MORAN'S BRAVE WORDS.

"I CAN hardly believe that the  
Journal has succeeded in  
raising so large a sum of  
money to commemorate the men of  
the Maine and the poor fellows who  
have died in Cuban battles.

"One hundred thousand dollars! It  
seems impossible. Yet the fund is  
growing. What a tribute to the  
Journal, and how forcibly it ex-  
presses the patriotism of the masses!

I have watched the growth of this  
fund very carefully and I have no-  
ticed the large number of very small  
subscriptions received. I have also  
noticed that they have come from  
every section of the country.

"Let us rear a noble monument to  
their memory. Let it tell all ages of  
their valor and heroism, and let it  
speak the nation's gratitude for  
those who die in its service."

"The men of my command propose to  
do something handsome for this  
fund, for many of my men are in  
Cuba, and some have fallen there  
already. We must see that they are  
properly remembered, and there is  
no better way of doing this than by  
erecting an enduring shaft to them."

"Colonel JAMES MORAN,  
"of the First Regiment, Irish Volun-  
teers."

## NEW YORK ALDERMEN TO HONOR THE NATION'S DEAD.

To Give a Big Carnival at Sulzer's Harlem River  
Park, and Devote All the Proceeds  
to the Journal Fund.

ALDERMAN GEORGE A. BURRELL,  
who has charge of the preliminary  
arrangements for the great carnival  
of sports, which is to take place at Sulzer's  
Harlem River Park, on August 10, under  
the auspices of the Aldermen of Greater  
New York, says that he will announce his  
full programme early next week.

"We will give," he said, "an afternoon  
and evening of rare and varied entertain-  
ment. Some of the athletics scheduled to  
take place will include the best in the  
amateur world. There will be events of  
all kinds and for all classes."

"The evening programme will be a great  
one. For the first time Pain will give an  
exhibition of fireworks in this section of  
the city. This in itself will be a feature  
worth seeing. Then we will have a first-  
class vaudeville show and a host of other  
attractions that will be sure to prove inter-  
esting to all who attend."

"The Journal's fund to honor our fallen  
heroes and the men who were destroyed  
with the Maine, now has reached a figure  
where a most enduring monument is as-  
sured. To commemorate so noteworthy an  
epoch in American history it should be in-  
creased by the patriots of the country for  
whom these poor fellows died.

"It is but fitting and proper that the  
Aldermen of Greater New York should do  
something to perpetuate the names and  
fame of our fallen soldiers. I know that  
to a man they are all interested in the  
Journal's fund, and want to help it in  
every possible way. I am sure they will all  
heartily work to make a great success of  
this coming festival."

On every hand assurances have been re-  
ceived that the carnival at Sulzer's will be  
a fitting tribute to the memorial fund.  
The Aldermen of the Borough of Brooklyn  
and the other boroughs will also co-operate  
with Mr. Burrell's committee.

"You can count on all of us," said  
Alderman Dooley, "to do our share toward  
this project. It ought to be a great suc-  
cess. I want to personally do something  
for this patriotic fund, and this is my  
chance. I think my colleagues also feel  
as I do."

"I am glad to see that the Journal's  
fund has been such a phenomenal suc-  
cess. It is indeed a most wonderful tri-  
umph of modern journalism and is a great  
tribute to the power of the Journal. It  
shows to what a degree it holds the con-  
fidence and respect of the American peo-  
ple. I hope we will be able to add a con-  
siderable sum to that already collected."

"We cannot erect too grand a monu-  
ment to the heroes who have died in bat-  
tle. I hope this memorial will be a fitting  
tribute to their memory and reflect the  
generosity and the patriotism of the Amer-  
ican people."

"I am sure we can do something hand-  
some for the Journal's fund," said Alder-  
man Ledwith, who is one of the most pop-  
ular men in the Board. "I will get all  
my friends to co-operate and make our  
contribution a commendable one. Some  
of the boys who were with me in the Irish  
Volunteers have died in Cuban battles  
and I will see to it that proper respect is  
shown to their memory."

"It is a noble work the Journal has  
started out to do, and I am glad it has  
succeeded so well. I do not think any  
other newspaper could have collected as  
vast a sum of money in so short a time.  
It is a remarkable tribute to the popularity  
of the Journal with the plain people of the  
country."

## SERIOUS CHARGE AGAINST SHAFTER.

Continued from First Page.

earnestly in hand. At present there are  
about 300 cases of yellow fever here.  
Fortunately the disease is of a mild type,  
the number of deaths being small. General  
Miles has done everything in his power to  
aid the medical officers in limiting and  
weeding out the disease."

More Than 4,000 Sick Soldiers.  
Washington, July 28.—The War De-  
partment to-night posted the following:  
"Adjutant-General of the Army—Condi-  
tion for the 27th: Total sick, 4,122; total  
fever, 3,193; new cases fever, 822; cases  
fever returned to duty, 542.

"Deaths—Private J. H. Farrell, Company  
H, Ninth Massachusetts Volunteers, at  
Siboney, yellow fever; Corporal Thomas  
Robison, Company D, Twenty-fourth In-  
fantry, Siboney, yellow fever; Private William  
H. Byers, Company D, Seventeenth In-  
fantry, cerebral apoplexy.

"(Signed.)  
SHAFTER,  
"Major-General."

The report has given the officials of the  
War Department considerable concern, but  
the reports heretofore made that the yellow  
fever cases were of a mild type en-  
courages the hope that the death rate will  
be small. The large number of fever cases  
reported shows that not only yellow fever,  
but typhoid and other kinds are numerous.

Fever Cases Not Uncommon.

Surgeon-General Sternberg says that it  
is the history of yellow fever that it  
spreads rapidly and having once got started  
in the camp is sure to infect many sol-  
diers. Speaking of the other fevers, he  
said that not only in Cuba, but in the  
camps in the United States, there had  
been many cases, and it was the history of  
all new armies that fevers, especially ty-  
phoid, became quite common. This was  
due to the change of climate and mode of  
life of the new soldiers. Even where the  
water is pure cases will arise. Soldiers  
bought and ate many things not furnished  
by the commissary, such as milk and other  
things peddled about the camps. Often  
these foods caused sickness. Another fea-  
ture he mentioned was the indifference care  
which some men took of themselves when  
they joined the army. It was his belief

that as the men became more seasoned  
there would be less sickness.

Are the Figures Misleading?

Secretary Alger is deeply concerned over  
the welfare of the troops under General  
Shafter's command. The health reports  
show a surprisingly large number of cases  
of sickness, but army surgeons authorize  
the statement that these figures are mis-  
leading in a certain sense, and that the  
situation may not be nearly so bad as they  
would seem to indicate. The slightest  
alliment of the most temporary nature  
suffices to place a soldier's name on the  
sick reports, which in their present shape  
would not distinguish between such a case  
and one of mortal illness. The inference  
is that many of these cases in Shafter's  
camp are of a trivial nature, but go to  
swell his grand total of sick and wounded.

Troops to Come North.

Notwithstanding this mitigating fact,  
Secretary Alger is going to remove the sol-  
diers at the very earliest opportunity to a  
more healthful climate. The Surgeon-Gen-  
eral, under the direction of the Secretary  
of War, a few days ago inspected a tract  
of land adjoining Montauk Point, L. I.,  
belonging to the Long Island Railroad  
Company, which has been offered to the  
Government as suitable for a large en-  
campment.

The tract is three miles square, contains  
an abundance of fresh water, a consider-  
able lake, a hill 150 feet in height and  
many other sanitary advantages, including  
salt water bathing. The necessary orders  
to equip this as a camping ground will go  
forward immediately, and every advantage  
will be taken of the experience gained in  
the formation of the great camps at Chika-  
mauga and Camp Alger to make conditions  
as comfortable as possible for the men. The  
time for their removal is left to General  
Shafter, the only limitation placed upon  
him being that he shall not delay the home-  
ward sailing of his troops beyond the mo-  
ment when it shall be safe for them to  
leave Santiago, having regard to the fever  
conditions. Meanwhile, details are being  
made of troops to supply the force that  
shall garrison Santiago so long as it shall  
be found necessary to continue troops there.  
This force will be made up almost alto-  
gether of immigrants.

## WANDERER'S CARGO LANDED IN CUBA.

"Dynamite Johnnie" at Last  
Outwits the Spaniards and  
Gets Arms to Gomez.

Key West, July 28.—A dispatch boat from  
the blockade line has just arrived here.  
She reports that the Wanderer effected a  
second landing yesterday a few leagues  
west of Havana, and that she was sig-  
nalled this morning twenty miles east of  
Morro Castle close in shore.

The Wanderer is in command of Captain  
O'Brien, the famous filibuster, better  
known as "Dynamite Johnnie." The vessel  
carried a large quantity of arms and am-  
munition for the Cuban army in the prov-  
inces of Pinar del Rio and Havana. Cap-  
tain O'Brien attempted to land his cargo  
at Banes five days ago, but was repulsed  
by a Spanish force on shore.

Minister Hoshi Will Go to Japan.

Washington, July 28.—The State Department  
has been informed by Minister Hoshi, of Japan,  
that he has been granted a leave of absence and will  
return to Japan for a time. Mr. Hoshi is promi-  
nently identified with the Liberal party of his  
country. The elections are about to be held, and  
it is understood he is to take part in the cam-  
paign. It is said his departure has no significance  
as relating to any foreign questions.

JUST look at this as a sample business  
proposition first and then view it as  
as a great opportunity. To begin  
with, the Musical Supplement of the great  
Sunday Journal gives away each week a  
copy in full music folio size of the best  
popular song that has made its appearance  
during the week. The song alone is worth  
fifty cents, yet our subscribers get it pos-  
sively free of charge with the regular Sun-  
day paper. Can you beat that for bargains?  
Now comes the importance of the oppor-  
tunity, which will be apparent when it is un-  
derstood that the song coming to you Sun-  
day next is no less a success than "I Love  
My Dolly Best," "Malcolm Williams's great  
sentimental ballad. It was written by him  
to fit a condition and caught on every-  
where. To-day it is quite the rage among  
songs of that class, and next Sunday it is  
yours free of charge.

## LONDON MARKET WAS INACTIVE.

American Securities Affected  
by the Decline in  
New York.

London, July 28.—American securities  
on the Stock Exchange to-day opened  
weak, due to the decline yesterday in New  
York, and the market remained dull and  
inactive while awaiting news from New  
York.

Lombard street was perturbed by the de-  
cline in New York exchange and the un-  
abated Continental demand for gold. Most  
of the Continental exchanges had an ad-  
verse tendency, owing to the combined  
fears of heavy bullion withdrawals, partly  
to meet the large trade balance in favor of  
America. As a result the discount houses  
declined business except at a material ad-  
vance in late rates.

The Stock Exchange responded to the  
nervous feeling caused by the gloomy  
money market prospects, with the result  
that gilt-edged securities, including con-  
sols, were affected and other securities were  
sympathetic.

## FRESH BEEF FOR MILES'S TROOPS.

Washington, July 28.—Contracts for sub-  
sistence and quartermaster's supplies in  
the army were made to-day. Among those  
awarded was one for an unlimited supply  
of fresh beef for the Porto Rico expedition,  
to be delivered at points along the coast  
to be designated hereafter.

The contractors are Swift & Company, of  
Chicago, and the price is 9.39 cents per  
pound. The Quartermaster-General award-  
ed a contract for 50,000 overcoats to Kirsh-  
baum & Co., of New York City, at \$9.39  
each, and one for 100,000 yards of shelter  
tent material to John Wamamaker, of Phila-  
delphia, at 11 1/2 cents per yard, being part  
of a contract for 272,000 yards of tentage.

Do You Advertise?

Advertisers want results—experience has  
told them the Sunday Journal is the great  
advertising medium. 350 "Wants" gained  
last Sunday.

## MADRID ADMITS MANILA'S FATE.

Takes Action So That Augusti  
Shall Only Give Up  
City and Environs.

London, July 29.—The Madrid corre-  
spondent of the Times says:

"The National Voluntary War Fund now  
exceeds 25,000,000 pesetas. La Corres-  
pondencia de Espana announces that in  
view of the probable capitulation of Man-  
ila, General Ricis, Captain General of the  
Visayas Islands, has been ordered to as-  
sume charge of all the territory formerly  
administered by Captain General Augusti.  
Thus General Augusti will only be able  
to sign the capitulation of the city of  
Manila and its environs."

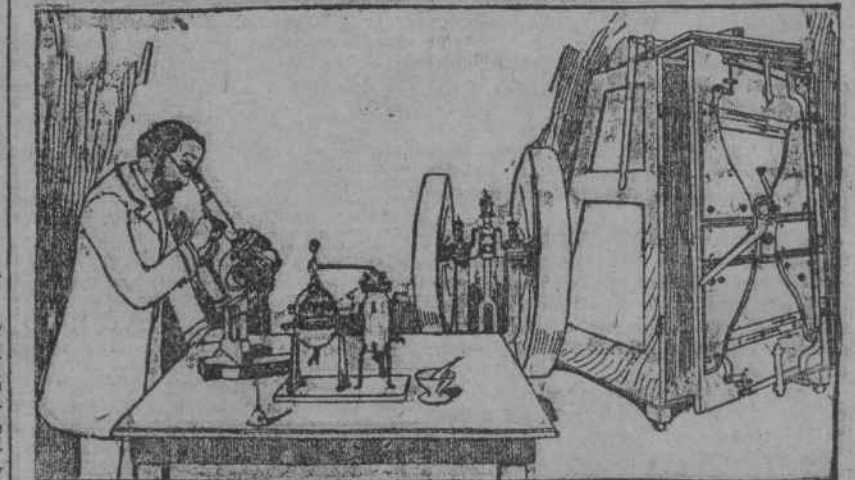

## FRENCH CRUISER LEAVES HAVANA.

D'Estaing Takes Away a  
Crowd of Refugees and  
Sails Westward.

Key West, Florida, July 28.—An officer  
from the flagship San Francisco, who ar-  
rived from the North Cuban blockade to-  
night with official dispatches from Com-  
modore Howell, says the French cruiser  
D'Estaing, which recently entered Havana  
harbor, came out this morning and stood  
off to the westward apparently for some  
Mexican port. She was crowded with refu-  
gees.

The monitor Terror, which had been off  
Havana for a week, left three days ago  
for Porto Rico.

The torpedo boat Talbot, converted  
yachts Mayflower and Viking and cruiser  
Topeka sailed to-day from Key West.

## Prof. Koch Is the Only Physician Who Ever Cured Consumption.

The new invention on exhibition at 48 West 22d st.  
The great German altitude generator for opening up the lungs.  
By the great inhalation medicine is carried directly into the lungs in-  
stead of the old way of swallowing medicine into the stomach. The old  
method of injecting medicine is but little used now.

At the Berlin university Professor Koch teaches this treatment to his  
students. At the German Government laboratory, of which he is chief, he  
promulgates his formula for curing lung diseases, which has made this  
great consumption doctor famous throughout the civilized world. By the  
use of the inhalation decay of the lungs is arrested and the sore and dis-  
eased places are healed by the healing, oily, medicated vapor, which is  
brought directly in contact with the affected parts through the tubes of the  
lungs, and results are secured in consumption, bronchitis, catarrh and asth-  
ma which never were and never could be accomplished by the old way of  
taking medicine into the stomach. By this inhalation the lungs are entirely  
filled with these healing oils, and the lungs are healed as if by magic. They  
are composed of antiseptics, disinfectants and the great Koch lymph, and  
the effect is to kill the diseased germs and expel them. In fact, no form of  
germ life can live when thoroughly under the influence of the Koch inhalation.

Please investigate and then you will see what this inhalation is doing for  
New York people. Call at the office and see the hundreds of testimonials  
of patients whom this treatment has cured. Cases that were given up as  
hopeless in nearly every case were the result of neglected catarrh, which  
crept into the lungs and imprinted on them their poisons, which, like a de-  
crept apple, began at a weak point, which gradually spread. This inven-  
tion is worth seeing, and the public is invited to call and investigate what  
can be and is being done right here in New York by this great invention.  
Consultation is free. The seven doctors of this council charge nothing for  
examination, and will send each one to many whom they have cured of dis-  
eases like their own. Seeing is believing. Their references are the cured  
patients and hundreds of New York physicians, who are constantly sending  
cases requiring inhalation.
